BLESSABILITY

- Blessability is how you act, think, and serve others in order to put your life and your prosperity into the vein of being blessable.

Blessability is a derivative of living in all five pillars in balance and equilibrium.

- Why live in blessability?

You have cause and effect with people around you- family, community and in business. Your blessability can make the difference.

- You can't be partial with blessability.

Make sure you're all in.

- Characteristics that form around blessability:

Joy - Harmony - Peace - Confidence -
Smiles - Excitement

Look for people who exhibit these characteristics.

Strive for them yourself.

- Try to be blessable in all situations.

Don't live a duplicitous life. Don't be one person in a boardroom, another on the street and another at home. Spread blessability around as evenly as you can.
