PRAYER

- Prayer is a communication made between the human being and a superior power, GOD.
 - Human beings send prayers to an all-knowing, all-loving God in hope and faith that he'll answer those prayers.
 - Think about: "Does God hear and listen to my prayers?"
 - How do you pray? Standardized prayers, like 'Our Father' or free, unstructured prayer
- If prayer hasn't been natural for you, give it a try. Open your mouth and let words pour out; address God and ask Him to be in your life.
 - Never, ever be afraid to praise Him or ask Him through your petitions.
 - Take arrows off yourself, point them outward by praying for others daily.
 - Prayers of reconciliation, petition, thanksgiving, praise and glory allow you to free your soul and your mind.
