

# E5 Leader

## PURPOSE

- Purpose is what directs us on our journey in life.
  - If we find that our purposes have been too small, we need to get a new purpose.
  - With a purpose greater than yourself, you will never run out of opportunity to serve, to grow, and to be more than you thought could ever be.
- Purpose in your life has a higher meaning than just you: Married? Your purpose is now two. Add a set of in-laws and extended family and your purpose grew. Children? Your purpose grows again, with a new level and dimension that invites legacy into your purpose.
  - Live with intentionality, never losing the idea of being purpose driven in everything you do.
