

# E5 Leader

## SHOULD I FOCUS ON COLLEGE OR E5?

- If you want an advanced degree, if it's your passion and your dream; pursue it.
  - Recognize that having a successful life and being on a path of success and leadership doesn't automatically come with a degree.
  - Make sure the degree you're considering is well-suited to your strengths, talents and temperament.
- Don't think of the decision as 'either/or'. Why not both?
  - Though knowledge is valuable, the wisdom to apply the knowledge is much more valuable.
  - An advanced degree will give you knowledge; E5 Leadership can help you gain wisdom.
