## FIRST DREAM TO COME TRUE

- When developing your dream list and your 10-10-10, recognize that they don't have to be achieved in the order you wrote them.
- Someone else's dream may spark your own because you recognize it as a cause you can get behind.
- When you have a dream, purpose or a cause greater than yourself, you might need a whole bunch of people to make it come true.

To achieve your dream, you don't have to do it alone. God is so powerful and infinite in His resources that He can put people into your life to help achieve that one dream.
